

saunum

ready-made saunas

Made in Estonia

A long love affair with the sauna

The sauna tradition in Estonia dates back to the 13th century, and the Estonian smoke sauna is on the UNESCO Representative List of the Intangible Cultural Heritage of Humanity.

saunum

“Inspired by the experience of my grandparents 100-year old smoke sauna, I wanted to create an innovative solution that combines the best features of an authentic sauna with modern technology, enabling a pleasantly mild and relaxing sauna experience without painfully scorching steam.”

Andrus Vare

Thermal Engineer and The Creator of Saunum

saunum

Saunum's mission is to encourage more and more people to discover the sauna as an exceptionally pleasant and relaxing way to maintain their health.

Developing smart, safe, high-quality and healthy sauna solutions that are characterized by modern design, functionality and a pleasantly simple user experience is a subject close to our hearts.

saunum

THE UPPER AIR
LAYERS ARE
TOO HOT

Your head and shoulder level is really hot, but your feet are left cold

The steam burning the skin makes the sauna session quite unpleasant. The lack of oxygen, burning steam and uneven temperature may cause headaches, tired feeling and lead to body stress.

THE LOWER AIR
LAYERS ARE
TOO COLD

saunum

At Saunum, we're pioneering a new era of quality for the sauna

- the biggest revolution in sauna technology in 70 years
- innovative, patented technology based on years of scientific research
- a uniquely healthy sauna microclimate
- a deeply relaxing, full-body sauna experience
- turn your sauna into a home spa

saunum

Innovative technology

Patented Air-Blending System

Saunum's patented Air-Blending System distributes the steam more evenly from head to toe, creating a soft and balanced climate within the sauna where it's easier to breathe and healthy negative salt ions are added to the air.

A balanced sauna climate

Tried and tested* for a more even temperature

Saunum solves one of the main problems with traditional steam saunas: uneven temperature distribution. Our patented air-blending system ensures a more even temperature from head to toe.

* Development work in cooperation with Tallinn University of Technology, during which thermal stratification and air movement in the sauna were analyzed.

80 °C / 176 °F TRADITIONAL NORDIC SAUNA

	Without climate function:	With Saunum climate function:
Head level	108 °C / 226.4 °F	91 °C / 195.8 °F
Foot level	27 °C / 80.6 °F	65 °C / 149 °F
Difference	81 °C / 177.8 °F	26 °C / 78.8 °F

Unique benefits

A much more rewarding sauna experience

Traditional steam sauna

Long, mild steam

Easy to breathe

No cold feet

Suitable for the whole family

Saunum's devices allow you to enjoy a traditional hot sauna – and thanks to the climate control system, you can relax there for even longer.

The softer steam is easier to breathe, meaning water can be thrown more often to increase steam yield and air humidity, ensuring a more intense sweat.

My home spa

A tranquil 5-in-1 home spa solution

Traditional steam sauna

Humid, steam-rich sauna

Mild, relaxing sauna

Sauna enriched with salt ions

Aromatherapy sauna

With their unique climate control system, Saunum devices transform your sauna into a peaceful five-in-one home spa that delivers an unprecedented steam experience.

Know-how

Skillful work by accomplished sauna masters

Our saunas are hand-crafted in Estonia by skilled, meticulous and diligent carpenters with years of experience. To ensure best-in-class quality, we use modern workshop techniques and carefully selected materials, paying close attention to the finest details.

High quality

Durable materials

Saunum products are made with tested and high quality materials that are able to withstand harsh conditions. Our heaters are a durable and long-lasting choice for all heating

Sustainability

A love of the
sauna – and nature

Our saunas make use of sustainable materials and efficient production methods with minimal waste.

Customizability

Tailor-made projects
available

Create your own sauna with multiple color, material and design options and technological features to choose from.

If you have your own design in mind, just let us know.
We're more than happy to build your dream sauna and home spa!

Portability

Simply place your sauna
wherever you want it

Our outdoor saunas have special hooks* for easy lifting with a crane,
and they can also be moved with a forklift.

* available with the Saunum AirCube series
